world's leading **nonwovens** exhibition

March 31–April 3, 2020 • Geneva, Switzerland

As the industry gets set to head to Geneva, Switzerland, for this month's INDEX 2020 Nonwovens Exhibition, *Nonwovens Industry* has prepared a special section of show coverage. The INDEX 2020 event—which will take place Tuesday, March 31 through Friday, April 3, and is sponsored by EDANA, the Brussels, Belgium-based European nonwovens trade association—is expected to draw more than 12,000 attendees to the Palexpo exhibition center where nearly 700 exhibitors have reserved booth space for the show, which begins at 9 a.m. each day and ends at 6 p.m. Tuesday, Wednesday and Thursday, and at 4 p.m. on Friday.

Over four days all the key players from around the world, from all levels of the nonwovens industry and across all application sectors, will gather together for the chance to present innovative solutions with nonwovens, seek new business opportunities, and expand their business networks.

INDEX will feature tutorials, workshops, a conference session and exhibitor product presentations. Another highlight of the show is the presentation of the INDEX Innovation Awards on the first day of the show at 10 a.m. at the EDANA Stand 1526 (Hall 1). These awards recognize innovation across a number of nonwovens categories.

This special section of *Nonwovens Industry* includes information on the trade show itself, exhibitors and the many new products and innovations scheduled to be introduced by INDEX exhibitors. Details on some of the booth presentations at INDEX 2020 are published beginning on page 148 and a complete exhibitors' list, containing contact information and booth numbers begins on page 80.

Before hitting the show floor, take a look through the following pages to familiarize yourself with the upcoming show.

And, don't forget to look for our "Live from INDEX 2020" breaking news email, which will be sent out each day of the show and include video interviews with key industry players as well as loads of news reported live from the venue.

So, whether you're heading to the show or not, *Nonwovens Industry* has all the information you need covered.
